PRESS RELEASE

Brave Releases New 2-Way Log Splitter *20 Ton Dual Split Powered by Honda GC160 Engine*

Rogers, MN – December 2014: Brave releases the PCLS2013GC dual action, horizontal log splitter. This two-way operating splitter enables users to split in both the forward and reverse stroke, cutting splitting in half time.

Brave's new PCLS2013GC boasts a 7-second cycle time, efficiently handling any splitting job. The PCLS2013GC features an 8" carbon steel wedge, 4" x 24" cylinder and is powered by a reliable Honda GC160 overhead cam engine. Standard table grate and easy to operate controls make this a splitter the one you'll want for your next splitting job.

Specifications

- Engine: 160cc Honda GC
- Splitting Force: 20 tons
- Wedge: 8" carbon steel
- Log tray standard
- Size: 62" long x 33" high x 39" wide
- Shipping Weight: 360 lbs
