A GNE BRAND

## FOR IMMEDIATE RELEASE

### **BRAVE INTRODUCES NEW 37 TON SPLITTER**

#### **Unit part of newly redesigned splitter line-up**

**Rogers, Minn. – September 2016:** Brave will introduce it's all new VH1737GX log splitter at GIE+EXPO in Louisville, Ky. The splitter can be operated in either the vertical or horizontal position and is powered by a Honda GX270 commercial engine. Offering a 37 ton splitting force, the unit is the largest in a newly redesigned Brave splitter line-up.

The newly redesigned line-up features industrial I-beams for added strength to prevent twisting as well as a premium 4-stage hydraulic filtration system that keeps the splitter clean from contaminants. Included nylon hydraulic hose sleeves offer protection from abrasive wear, sunlight and accidental spraying from pinhole hose leaks. Log cradles and a heavy-duty log dislodger are standard with new models. Optional fenders and engine guard are also available.

#### **About Brave**

A brand of Great Northern Equipment (GNE), Brave manufactures high-quality outdoor power equipment. Made in Minnesota, the Brave line-up includes log splitters, pressure washers, trenchers and earth augers.
